

TSA Nationals - #1 Again

Thursday, 26 April 2007

Last Updated Tuesday, 01 December 2009

From June 28th to July 2nd, High Point's TSA Chapter competed at the TSA National Conference in Denver, Colorado...where the Mile High City hosted 4000 attendees from 40 states and Germany.

For the first time since 2006, we earned a NATIONAL CHAMPIONSHIP, this time in Electronic Research and Experimentation. This is the fourth consecutive year that we finished Top Ten in this event.

We also finished 4th in the United States in Agriculture and Biotechnology Design!

In addition to project success, Dan Rella, Julie Ryan, and Beth Ann Larson were recognized with Gold Achievement Awards for their dedicated service to TSA here at High Point and in New Jersey.

Congratulations to the 2009 High Point National Conference Team...on your professionalism, your dedication, and to your successes!

We are Proud of You!
